Actuality of research theme. The state youth policy is the most important element of the strategy of development for Russia allowing to create the future of the country in a waterway of progressive changes and competitive achievements taking into account the arising threats and calls - both on macro - and at the microlevel.

The Russian Federation, being the multinational country, consists of 85 subjects (regions) differing on historical, ethnic, economic, natural and geographical signs. Within functioning of modern institute of the state the most part of responsibility for the process of implementation of youth policy moves to regions of the Russian Federation.

The special attention is deserved in this regard by the regions having specific history of formation, a difficult ethnocultural situation, resource deficiency in which the existing youth problems, civil mentality form barriers on the way of realization of federal model of the state youth policy. The Chechen Republic which is characterized by special type of welfare system of traditions, economic, demographic and political

positions concerning other territorial subjects of the Russian Federation belongs to such regions.

Objective of the Research consists in a research of theoretical aspects and development of practical recommendations in the sphere of realization of the state youth policy at the regional level taking into account features of the Chechen Republic.

The Tasks of the Research:

- to investigate youth as the subject and object of the state youth policy;
- to consider essence of the state youth policy;
- to open priorities of modern state youth policy of the Russian Federation;
- to analyse features of realization of the state youth policy at the regional level;
- to reveal problems of regional youth of the Chechen Republic;
- to consider implementation of youth policy in the Chechen Republic;
- to study problems in realization of the state youth policy in the Chechen Republic;
- to offer the strategic directions of improvement of practice of realization of the state youth policy in the Chechen Republic;
- to formulate conditions of effective realization of the strategic directions of improvement of management in the sphere of the state youth policy in the Chechen Republic.

The Theoretical and Practical Significance of the Research. The theoretical provisions stated in work assist specification and extension of scientific information on social processes in young people and activity of the social institutes connected with management of the state youth policy. The allocated barriers on the way of realization of the state youth policy in regional conditions have the high importance. The practical value of a research consists in development of recommendations which can be used in practical work of the authorities of the Chechen Republic enabling the realization of youth policy. The practical importance of a research consists also in a

possibility of extrapolation of its results on realization of the state youth policy in other regions of the Russian Federation.

The Findings of the Research. The process research realization of the state youth policy at the regional level allowed to reveal the most significant social problems of youth in the Chechen Republic which can conditionally be united in the following groups: problems of employment, problem of education, health problem, housing problems, communication. There are significant differences in perception of social problems by the Chechen youth depending on the place of residence. Besides, also gender distinctions affect. Assessment of the operating system of realization of the state youth policy in the conditions of the Chechen Republic allowed to allocate shortcomings of its institutional subsystem, a technological subsystem and a resource subsystem of realization of the state youth policy of the Chechen Republic.

Recommendations. On the basis of the conducted researches and the problem analysis of the process of implementation of the state youth policy in the Chechen Republic the strategic directions of improvement of practice of realization of the state youth policy in the Chechen Republic are offered and the main conditions of effective realization of the strategic directions of improvement of management in the sphere of the state youth policy are defined.
