E. A. Pisarenko

Information about the organization-customer: Individual Entrepreneur – Malivenko Y.I. Pyatigorsk

The relevance chosen theme of the WRC is due to the fact that insufficient attention to the protection of information in a small business, leakage or unauthorized access to confidential information may entail both commercial and reputational losses, which will damage the business.

Purpose: development of recommendations for the protection of information for individual entrepreneur Malivenko Y.I.

Tasks:

- familiarization with the structure and subject area of activity of the Angel of Memory enterprise;
- analysis of the protection of confidential information in the company “Angel of Memory”;
- analysis of the information flow of the organization;
- characteristics of the methods and tools in the organization;
- formulation of the task to improve the protection of confidential information in the organization;
- selection of remedies;
- development of recommendations for the protection of confidential information in the enterprise «Angel of Memory».

Theoretical and practical significance of the study. The theoretical significance lies in the consideration of the theoretical foundations of the protection of confidential information in a small business. The practical significance lies in the

fact that the results can be used in the development of recommendations on information security for other small businesses.

Results of the study: Recommendations on the protection of confidential information in the «Angel of Memory» company have been developed.

Recommendations:

- acquisition of a universal USB token to the enterprise to solve the problem of access to employees' workplaces;
- acquisition of a server for keeping round-the-clock video recording from cameras on the territory of the enterprise;
- installation of additional monoblocks to distribute the storage of service information to the workplaces of employees of the enterprise;
- use of the built-in safe to store confidential documents in the enterprise;
- increase the number of video cameras for surveillance in office premises.
